MR. SHERMAN ON DECK

The Sick Man Is Removed From His Cabin Into the Fresh Air.

VISITED BY GENERAL WOOD.

If the Cruiser Chicago Starts With the Patient For America He Will Likely Arrive at Tampa Sunday Evening.

Santiago de Cuba, March 22.—Mr. Sherman continues improving, and will be moved from his cabin on deck for an hour. General Wood went on board the Paris to visit Mr. Sherman. The city is full of tourists who have landed from the American liner.

Mrs. McCallum Receives a Message.
Washington, March 22.—Mrs. McCallum, daughter of Hon. John Sherman, received a cablegram from Mr. Wilberg, who is accompanying the former secretary of state on his tour of the West Indies, announcing Mr. Sherman's continued improvement. The Chicago will arrive at Santiago in a few hours, and if Mr. Sherman and his friends are still of the same mind will take him aboard and bring him home. As to the landing place, it is said by Secretary Long that the commander of the Chicago, Captain Cooper, will be guided entirely by the wishes of Mr. Sherman's family, and if it is desired that he be taken to some Florida port to avert danger from a too rapid climatic change, that course will be adopted. The Chicago should reach Tampa, if that port is selected as a landing, by Sunday evening.

PLANS CHANGED
When Train Was Lured at Santiago About Mr. Sherman.

Santiago, Cuba, March 22.—Owing to the supposed authenticity of the report received here from Captain Leigh, the chief signal officer, regarding the alleged death of John Sherman, the former secretary of state, the weekly reception of Mrs. Wood, the wife of General Leonard Wood, was postponed. After the arrival of the American line steamer Paris at Santiago, and the announcement that there was no truth in the reports of the death of Mr. Sherman, word was sent out that Mrs. Wood would receive. It was too late, however, to obtain the services of the band. In spite of this, fully 200 passengers from the Paris were present at the reception. When the Paris reached here those on board of her noticed that the flag was flying from Morro castle at the entrance of the harbor was at half-mast, and it was inferred by the passengers that some important personage was dead. Their surprise was great when told, on being reached by a tug, that a report was current that Mr. Sherman was dead. Captain Leigh gave the signal office at Guantanamo a bad quarter of an hour.

The men on duty there explained that they had received the alleged news of Mr. Sherman's death from the French cable company, and supposing it to be correct, sent an official confirmation, as they had no cause to doubt the authenticity of the report. The announcement of Mr. Sherman's death obtained so much credence here that General Wood even had a cable dispatch written asking the authorities at Washington for instructions as to the special honors they were desirous of paying to the remains of the distinguished statesman, but before this message was sent the Paris arrived here, and everybody was pleased to hear Mr. Sherman, instead of being dead, was improving in health.

Bryan Will Attend.
New York, March 22.—Eugene B. Brewster, chairman of the Chicago platform Democrats' dinner committee, received a telegram from Colonel W. J. Bryan, in which he accepts the invitation to the dinner to be given in this city by the Chicago platform Democracy. The telegram is dated Nashville, Tenn., March 22, and reads thus: "Will attend Jefferson dinner, Chicago platform Democrats, April 17."

Mrs. Fahey's Confession.
Louisville, March 22.—Mrs. Kate Fahey admitted that she shot Jacob Crow, a young man who was found in her house Tuesday with a bullet in his abdomen, and who now lies at the city hospital dying. Mrs. Fahey says that Crow came to her house and tried to assault her, and that she took his own pistol away from him and shot him. She at first claimed it was an attempt at suicide, but says she did this through fear.

Treasury Statement.
Washington, March 22.—The statement of the condition of the treasury shows: Available cash balance, \$231,164,800; gold reserve, \$242,142,410.

DUPONT POWDER MILLS

Blown to Pieces and Two Men Instantly Killed.

Pen's Grove, N. J., March 22.—Two men were killed by the explosion of the E. I. Dupont powder mills at Carney Point, N. J., near here. The killed are Isaac Layton and Charles Ford. Frank Magill was fatally injured.

There are five mills located at Carney Point, and all were blown to pieces. The first explosion occurred in the gun cotton room, and it was followed in rapid succession by four others.

Desire Reciprocity.

Washington, March 22.—Mr. Henry Peartree, president of the American chamber of commerce of Paris, has had talks with Ambassador Cambon of France, and Mr. Kasson, special reciprocity commissioner, regarding the Franco-American reciprocity treaty now in course of negotiation. Mr. Peartree brings a fund of information concerning American interests in France. The American chamber of commerce at Paris represents those most directly connected with the trade between the two countries—the extensive producers, dealers, importers and exporters, mainly Americans with some Frenchmen. To a man, Mr. Peartree says they hope to see a broad and liberal policy of reciprocity between the two countries.

To Limit the Number.

Atlanta, March 22.—General John B. Gordon has issued an order that only one sponsor and one maid of honor from each congressional district shall be sent to the next reunion of ex-Confederate veterans at Charleston. The circular is in response to a resolution adopted at a convention of the United Daughters of the Confederacy held at Hot Springs, November, 1898 requesting the United Confederate Veterans "to limit the number of sponsors and maids of honor to one of each, from each state and territory where there is a camp of United Confederate Veterans, because the Confederate reunions have been of late years an entertainment for the sponsors and maids of honor instead of the veterans."

Prospectus Issued.

New York, March 22.—The prospectus of the National Strawboard company has been issued. It says that the company is to be incorporated under the laws of New Jersey with a capital of \$6,000,000, equally divided between common and 7 per cent cumulative preferred stock. The company will have a working capital of \$200,000, and is expected by its managers to control half the strawboard output of the country. An agreement will be reached. It is said, with the American Strawboard company, which controls the other half of the output.

German Baroness Paroled.

Kokomo, Ind., March 22.—Mrs. Augusta Schmidt, the German baroness convicted of murder five years ago and sentenced to 10 years' imprisonment, has been paroled by Governor Mount out of consideration for her small children. Her defense at the time of trial was that she acted in defense against criminal assault. She is the daughter of the late Johann Schilling of Schwieka, Saxony. While en route to America, her father died at sea. Her mother married Walter Hooper of this city. The baroness inherited an estate of \$60,000.

Arabs on a Raiding Expedition.

Algiers, March 22.—The Telegramme Algerien announces that a number of Arabs arrived at Ghardeia, and that they were raiding the country. Ghardeia is situated about 300 miles south of Algiers, in the Sahara. It is further announced that a party of Touaregs recently attacked a European expedition, which was on its way to Air in the Sahara, and that after a fierce fight the Touaregs were beaten off. The expedition lost 100 men killed and part of its caravan was captured.

Knew Nothing of Conspiracy.

New York, March 22.—Concerning the story printed here of an alleged plot to rob an United States express car of \$1000,000 of government money, which was being shipped to the Hampton National Volunteers' home for the payment of pensions to veterans quartered there, Senator Thomas C. Platt told a reporter that he knew nothing about such conspiracy.

Authorized to Sell.

Cincinnati, March 22.—A meeting of the American stockholders of the proposed Black Diamond route was held here for the purpose of completing the sale to English capitalists. Mr. W. P. Dickinson of Washington was authorized to transfer the franchise and rights to the British financiers. Mr. Dickinson will leave for England in a few days.

Italy's Demand Refused.

Rome, March 22.—It is understood that the Chinese minister has informed the Italian government that China absolutely refuses the demand of Italy for a concession at San Mun bay.

HORSEFLESH OR BEEF?

Samples of the Former Found on the Chicago Market.

TESTIMONY OF DR. MURDOCK

Another Batch of Interesting Stories Told by Witnesses Seeking to Enlighten Court of Inquiry on the Army Rations.

Chicago, March 22.—The board of inquiry investigating army beef examined Lieutenant L. J. D. Harman of the First cavalry, who was acting regimental quartermaster while the regiment was stationed at Lakeland, Fla. He testified that refrigerator beef was received from Armour & Company. It was brought to Lakeland in cars. At first it was very good, and there was no objection to it, but in three or four days it began to get poorer in quality. In two instances a board of survey rejected the beef. In one case the witness rejected a whole carload. The stench was observable before the car was opened. The beef was not received because decomposition had set in.

In some cases ice was put in with the beef, but this gave the meat a slimy, repulsive appearance, and it was rejected. Witness then got authority to buy beef in the open market.

David A. Fleischman testified that he was employed as bellboy at the Hotel Morrison, Chicago, during the month of June, 1898. "One day in June," he said, "gentlemen in room 131 asked me if I would be at leisure to go to the stockyards with him. I went out there with him and had to carry two boxes, tin or galvanized iron boxes. He went out to see some man about some meat, he told me. We took the boxes and went to a car, where there were three or four rows of meat. In each of the boxes there were four smaller packages containing, as I recall it, a black or rather a light gray colored substance. He put this into perforated trays made for that purpose, set fire to it and placed it under the meat. I asked him what that was done for, and he said it was done as an experiment to preserve the meat.

"Next day I was to go back and get the cans; I asked him whether it was to kill germs or anything like that, but he said no, simply to preserve the meat. I put my finger on the meat and tasted it, and it burned the end of my tongue.

"I called attention to the fact that the meat looked rather larger than when we were there before. He said that was simply an enlargement of the meat from the ice. There was a sulphurous smell in the car and another odor which I can not describe. I took the cans back to the hotel.

"I noticed in one end of the car there was a row marked 'Tampa, Fla.' This was at Armour's packing house. There was only one car; there were only about three rows of beef. I think it was halves. I asked him who he was, and if I am not mistaken, he told me he was a quartermaster, or a quartermaster general, or something like that. He was about 5 feet 10 inches tall, wore eyeglasses, and I should judge was about 45 years of age. He wore no uniform, but was dressed in plain clothes. I understood from what he said that he had some connection with the military service."

Dr. Murdock's Testimony.

Dr. E. E. Murdock, who was for two years president of the auxiliary medical staff in the Chicago health department as an analytical chemist, was the next witness.

He stated that he made several examinations of both canned and refrigerated beef, dating back several years. Some time in the latter part of June, 1898, he said, some canned meat was brought to him to determine its character. The first sample was brought with the assertion that it was horseflesh, but on examination this was found to be untrue.

With reference to the examination of fresh beef the witness said that at three different times there were brought to him pieces of what seemed to be ordinary meat from the markets, which evidently had been kept for some time, presumably in a refrigerator.

"I found," said Dr. Murdock, "that some of the meat was coated with boric acid. In other specimens I found that they had been coated with a preparation of salicylic acid for preserving the meat. I understood this to be refrigerator beef; found boric acid in two specimens and salicylic acid in one. These experiments were made about the middle of June, 1898."

Colonel Davis—Had it any connection with the government?"

"I don't know that it did."
"Was it delivered to you by any one connected with the government? Had he contract relations with the United States?"

"I don't know that he had."
"Have you ever found horseflesh put up in cans and sold on the market here in Chicago?"

"Not put up in cans, but I have had samples brought to me purporting to be fresh beef from the market, and have found some of these samples to be horseflesh instead of beef. I had no means of knowing whence they came. An investigation with that result once led the health department to suppress an establishment in the outskirts of Chicago."

JUMPED THE TRACK.

Engineer on an Erie Passenger Train Is Instantly Killed.

Cleveland, March 22.—Train No. 5, a fast through westbound passenger train on the Erie road, jumped the track at Rittman, 10 miles west of Akron, O., the engine and baggage car going into a ditch. Engineer Wallace Logan was almost instantly killed and his fireman seriously injured. The passenger cars remained on the track and none of the passengers were injured.

Indictments Against Insurance People.

Cincinnati, March 22.—The grand jury of Kenton county, at Covington, Ky., returned indictments against the Home Life Insurance company of New York and 42 other life and fire companies for conspiracy for "banding together and fixing and maintaining a higher rate of premium than would otherwise prevail. The indictment is found under the anti-trust laws of the commonwealth, and this action of the grand jury may be followed by the execution of the threat made by the underwriters at the time of a previous indictment, to withdraw and leave Covington without insurance.

An Ohio Wanderer Dies.

Princeton, Ky., March 22.—James H. Dildine, a tramp, is dead at the railroad depot here, having reached here from Paducah, Ky. It has been ascertained that his home is at Lima, O., and that he has held responsible positions as a railroad man. He had been with a party of 20 or more tramps at Paducah, who had obtained wood alcohol, and his is the fourth death of the party.

May Reject It.

Cleveland, March 22.—The lake sailors who were granted an advance of \$5 per month in wages for the coming season by the executive committee of the Lake Carriers' association a few days since are not satisfied with the increase offered, and may decide to reject it. The question will be taken up at a meeting of the Central Labor union.

Prayers for Elder.

Cincinnati, March 22.—This is the 80th anniversary of the birthday of Archbishop W. H. Elder. At his own request, no special significance is given to the day, but in all the churches of the diocese prayers were offered for the continuance of the life.

New Incorporations.

Columbus, O., March 22.—The Tremont Hotel company, Fremont, capital stock \$50,000.

A Settlement Demanded.

Pekin, March 22.—The British, German and American ministers at Pekin have addressed notes to the Chinese foreign office demanding a settlement of the Shanghai foreign settlement extensions question, the French minister, M. Pichon, agreeing to withdraw the protest of the French consul against the extensions, on the condition that the proposed extensions do not include that portion of the land forming the immediate hinterland of the present French concession.

The Other Died.

Evansville, Ind., March 22.—Thomas H. Wiggs, son of State Senator Joseph W. Wiggs of Pike county, literally cut to pieces Wesley Hurt, a young man who entered Wiggs' schoolroom with a pistol, and told him one of them must die. Wiggs had only a pocket knife, but he defended himself with this in such a way as to leave his antagonist for dead on the floor. He was helped by his brother, a pupil, who also had a knife. The two surrendered themselves to officers.

Tennessee Volunteers Ordered Home.

Washington, March 22.—The transport Dixie has been ordered to proceed with haste from New York to Trinidad to bring home the Fourth Tennessee volunteers. General Brooke has been directed to have the regiment in readiness to embark when the transport arrives.

Porter Say Neither Yes Nor No.

Paris, March 22.—General Horace Porter, the United States ambassador, said he was unable to discuss the rumors to the effect that he may succeed General Alger as secretary of war, as all information on the subject ought to come from Washington.

THEIR JOURNEY ENDED

Arrival of Soldiers of Seventeenth Regiment at Manila.

AGUINALDO'S LITTLE GAME.

The Leader of Filipino Insurgents Is Reported as Saying He Will March Into Manila Unless the Americans Withdraw.

Manila, March 22.—While apparently inactive since Sunday, really the opposite has been the case with the American forces.

A reorganization, entailing many changes, has been in progress since the abandonment of the flying column. General Wheaton's and General Hall's brigades have not been assigned, but the Oregon regiment, the Minnesota regiment and the Twenty-second regiment have been concentrated at the camp on the Luneta, at the water front, in readiness for immediate transportation when the plans of the military leaders have been formulated.

Our troops are entrenched and the situation is practically unchanged. The enemy has refrained from making any attacks recently, and it would appear that the rebels are saving their ammunition for a decisive movement.

According to a prisoner captured by our troops, Aguinaldo has announced that he will personally conduct the reserves at Malolos, and march into Manila within 20 days unless the Americans withdraw in the meantime.

The concentration of rebel forces in the vicinity of Malabon gives color to the statement of the prisoner.

Advices received from Cebu by a coasting steamer say everything is quiet there. The United States transport Sherman from New York on Feb. 3 has arrived here. One child, two sailors and two privates died on the voyage, and one man was drowned in the Mediterranean.

Additional Troops.

Washington, March 22.—Additional reinforcements reached General Otis at Manila, as is indicated by the receipt of a dispatch from General Otis, saying that the transport Sherman had just arrived with the troops in good condition. The Sherman followed the Grant through the Suez canal and preceded the transport Sheridan over the same route. The Sheridan is expected to reach Manila in about two weeks. These three vessels will add about 5,000 fresh regular troops to the military forces in the Philippines, and are expected to aid materially in the plans which contemplate the complete subjugation of the insurrectionists before the opening of the rainy season about the middle of April.

Address Made Public.

Manila, March 22.—The address to the natives of the Philippine islands, drafted by the American commission in behalf of the United States government and embodying the views of the president, has been made public. After being translated into all the native dialects it is to be disseminated throughout the archipelago. The address assures the Filipinos of the intention of the Americans to develop the powers of self-government in the people.

Request For Arms.

Iloilo, March 22.—A scare is reported in the island of Negros. Upward of 60 Spanish refugee planters have arrived at Iloilo, and state that a native tribe, 20,000 strong, living on the Montesinos river, 20 miles south of Bacolod, threaten to destroy the crops. They have a few firearms, but are mostly equipped with spears and bows. The Spaniards requested arms from General Miller to defend themselves and their property.

Seventeenth at Manila.

Washington, March 22.—General Otis has cabled the war department announcing the arrival of the transport Sherman at Manila. The Sherman sailed from New York with the Third Infantry and four companies of the Seventeenth Infantry under command of Colonel J. H. Page. The troops are reported as arriving all well and in good condition. The Seventeenth went from Columbus, O.

Solace at Manila.

Washington, March 22.—The Solace arrived at Manila, 43 days from Norfolk. This is 11 days less time than the Buffalo, and very fast time.

Washington, March 22.—The war department has no information concerning the disturbances in Havana. It is said that General Brooke has not thought them of sufficient importance to report to the department.

By a Joint Commission.

Washington, March 22.—The manner in which the number of troops in the Cuban army was ascertained was through a joint commission appointed by General Brooke and General Gomez.

DEMOCRATIC STATE CONVENTION.

At a meeting held by the Democratic State Executive Committee in the city of Lexington on March 8th, 1899, it was ordered that a State convention be held in Louisville on Wednesday, June 21st, 1899, for the purpose of nominating Democratic candidates for State officers to be voted for November 7th, 1899, the convention to be called to order at 11 o'clock a. m.

Delegates to said State convention shall be chosen at county mass-conventions to be held at the various county court-houses in counties having but one legislative district, of which due notice shall be given by the various County Committees. In counties having more than one legislative district there shall be a convention for each legislative district to be held at some convenient point to be indicated by the Chairman of the Legislative District Committee, who shall advertise in the local papers the location for said convention at least ten days prior to the date fixed by this committee. Said county and legislative district conventions shall be held at 2 o'clock p. m., standard time, on June 15th, 1899. Said conventions shall be called to order by the Chairman of the respective County or Legislative District Committees.

The basis of representation of each county to the said State convention shall be one delegate for each 200 votes and fraction of 100 or more votes cast for the head of the Democratic Electoral ticket in the Presidential election in 1896, provided that each county shall have at least one delegate vote. All known Democrats and others who supported W. J. Bryan for President and those who pledge themselves to support the nominees of said State convention shall be entitled to participate in the county or legislative district conventions.

P. P. JOHNSTON, Chairman.
R. Owen Cochran, Secretary.

LIEUTENANT GOVERNOR WORTHINGTON has the pardon mill going at a rapid gate the e days.

WHEN the St. Paul Pioneer Press declares that it is the duty of the Republican party to repeal every protective duty under the shelter of which its beneficiaries have organized a trust or combination of any sort to advance prices, it meets the views of the Times-Herald to a dot. The purpose of the protective tariff was to foster industries, not to protect monopolies.

No mercy or consideration should be shown any combination of capital that takes advantage of a protective tariff to mult American consumers.

Wherever the protective tariff enhances the price of the product of a trust to the American consumer, it should be reduced or removed entirely. Its adoption will remove the stigma of fostering trusts from the Republican party.—Chicago Times-Herald.

The significance of the above is enhanced by the fact that the Times-Herald is regarded as the Administration's organ in the West. Unquestionably the Republicans are becoming alarmed, and the Administration no doubt realizes the danger to the g. o. p. unless a firm stand is taken against the thieving trusts and combines.

A COLONIAL EXPANSIONIST.

In the spring of 1885, on the occasion of a local centennial celebration, a pamphlet was published by a citizen of Kentucky directing attention to the effect of certain racial and religious influences in moulding the political institutions of this State. It was entitled "The Genesis of a Pioneer Commonwealth." The suggestions offered by this writer as to the sources of our organic life were incidentally illustrated and confirmed by an eminent Virginian scholar, Dr. Alexander Brown, in his "Genesis of the United States," (published in 1890), a work which throws a flood of light upon the broad expanse of early American history, and is especially remarkable for the critical elaboration, lucidity and acuteness with which the author has arranged the results of his vast scheme of historical research. It is as true of Dr. Brown as of Gibbon, that he is luminous as well as voluminous; and his masterly productions should find a place in the library of every American scholar.

In the "Genesis" are noted and traced from official English records contemporary with the first settlement of Virginia, the beginnings of that great duel between conflicting civilizations which recently closed with the destruction of Spain's naval power at Santiago and Manila; and it is precisely true that one must read these remarkable books of Dr. Brown in order to have a thorough comprehension of the *origines* of the late war. Every incident and detail of the desperate and protracted Anglo-Spanish conflict—including the destruction of the Armada—comes out under this historic search-light as distinctly and vividly as under the light of day.

To citizens of Kentucky who have a critical and philosophic interest in the history of their State, Dr. Brown's work is peculiarly interesting in the circumstance that it connects, and, in a special sense, includes, the genesis of Kentucky with that of the United States; and suggests, in a most interesting way, that this Commonwealth is not only a lineal product of the Anglo-Virginian civilization which he has sought to trace, but that,

cartographically at least, it formed an integral part of the first Republic established in the new world. In a recent communication to a friend in Kentucky, Dr. Brown says: "The bounds of the charters which contained the popular charter rights which were the germ of this Republic, extended between thirty-four degrees and forty degrees north latitude and from ocean to ocean. Kentucky, therefore, was embraced within the first Republic in America."

These Virginian charters were drawn by Sir Edwin Sandys, (a son of an English archbishop), who had been educated in Geneva and was thoroughly seasoned with the doctrines of the Genevan school. "If God," he declared, "did constitute and direct a frame of Government on earth, it was that of Geneva."—He therefore endeavored not only to found the American republic on Genevan lines and "to erect a free State" on the Atlantic coast, but to make ample provision in the charter itself for the ultimate "expansion" of the young republic toward the Pacific sea. The sagacious statesmen of Spain were not slow to detect the threatening nature of this Virginian settlement, small as it was, and the conflict then initiated did not cease until the navies of Spain went down under the guns of Dewey and Schley. The struggle for Kentucky in the closing years of the last century was part of the same prolonged contest for supremacy on American soil. Every resource of diplomacy and intrigue was exhausted by Spain to wrest the germinant commonwealth from the parent stem; and, on the other hand, no scheme was more popular with the bold and enterprising Kentuckians of that day than a proposal to wrest the control of the Mississippi from the desperate grasp of Spain. During years of almost revolutionary agitation, the District of Kentucky stood faithful, dauntless and alone; and it is historically and critically true that even the splendid allurements of a Spanish alliance was powerless against the transmitted instincts of a clannish race, the inherited discipline of a Calvinistic church, and the deep-seated Anglo-Virginian passion for liberty regulated by law. Every thoughtful citizen should read Dr. Brown. His work is a marvel of masterly investigation.

THE "PUBLIC PARK."

It Has Been Handsomely Improved at Last. After Being Neglected For Many Many Years.

Years and years ago Samuel January, a resident of Mayesville, in platting off a tract of land in what was then known as Newtown, now the Fifth ward of this city, designated the square at the northwest corner of Third and Union streets as "Public Square."

The city authorities never took any interest in "Public Square," but allowed it to continue as a part of the commons until recently when Councilman Geo. W. Crowell succeeded, after repeated efforts, in securing an order for grading and improving it. Council voted \$50 for this purpose, and Mr. Crowell and his committee, with some donations from public-spirited citizens, have handsomely improved "Public Square."

The square was first graded, cinder walks were put down extending through it and around it, shade trees and some ornamental shrubs set out, the whole inclosed by a wire fence.

Mr. Crowell will also provide the park with a number of seats, and as soon as the weather is suitable will put out a lot of flowers, and any one having flowers, plants or shrubbery to donate for that purpose will kindly notify him. He invites the ladies of the city, and especially of the Fifth ward, to assist in the work of beautifying "Public Square."

It is now suggested that the place be known hereafter as "January Park."

Exceeds the best part we have ever had. Why shouldn't it? It represents the most careful choosing from the leading fashion makers. We can't show everything—no store can—but we do and will show the BEST. Ours is and is going to be the finest Dress Goods store in this section.

This is no trifling statement; it is one we are determined to realize this Spring. Test us by our showings for the next few months. The following list is merely for a chance suggestion: At \$1.50 a yard, narrow cord, Cote d'Cheval; five colors. \$1.25 a yard, Corded Drap d'Paris, six colorings. \$1.00 a yard, French Epingline, black and colors. 89c. a yard, Granite Cloths; full line of colors. 75c. a yard, Coverts and Melanges in all spring shades.

1899 Spring Clothing!

Whatever else the Spring of 1899 may have in store for you it certainly offers the golden opportunity to buy the very best Clothing.

We enter the season with a line of Suits and Top Coats that will command the respect and admiration of all on account of their elegance, style, and quality, and offer them at prices lower than you would expect of goods of such merit and worth. We think you never have looked over a better assorted stock. It is practical, consisting of popular styles and standard, reliable goods. It was never more attractive in its profusion of new novelties of the practical, desirable kind, that will supply your needs perfectly. It is the fundamental principle of our business to sell reliable goods. We carry all grades to be sure. A judge of goods will certainly give us credit for good intentions when he looks over our entire line with an eye to quality. They are all honest, first-class productions that will speak for themselves. We expect no one to give us a dollar's worth of trade unless they see that their interests are advanced by the transaction. Whether you buy from our finest or our cheapest grade, you are sure to get an honest value for your money.

THE BEE HIVE

--Superb--

Spring Dress Goods

Our Dress Goods stock is now replete in every way. The shelves and counters are literally groaning with the weight of the hundreds of bolts of exquisite Dress Goods stuffs. Spring Coverts and Tailor-made Suits, Dame Fashion's most popular fabrics, are here in great profusion. At 50c. a yard there is a forty-two-inch all wool Covert and a fifty-four-inch Suing, worth fully 75c. a yard. They come in a dozen different shades. The prettiest of Plaids, all appropriate patterns for waists and Skirts, from 15c. to \$1.25 a yard. The very richest Crepons, all new designs, from \$1 to \$2.50 a yard. We can't tell you all the good news about our Dress Goods stock—space will not permit. Investigate, please.

Swagger ...Spring Silks...

It's by great odds the greatest Silk department in town. We are showing a line of Taffetas at 89c. that are never sold under \$1 a yard elsewhere. Not a color or shade that you can mention but what you'll find here. Our immense stock of exquisite fancy Taffetas has been much admired by worthy connoisseurs. Prices from 75c. to \$1.50 a yard. Every yard of our \$1 Black Taffeta Silks is guaranteed. Besides, you'll find here a great assortment of China Silks, made by the famous Komachi, ann worth fully 65c., our price 45c. and 49c. a yard.

BOARD OF TRADE.

A Number of New Members Added Since Last Report—Other Matters.

The room selected by the committee on location is No. 8 Masonic Temple. If there are those who have some chairs, a carpet and table to give let them communicate with Harry C. Curran and he will send for the articles.

The Board of Trade seeks to be a permanent organization, having for its main object the extension of commercial relations and the improvement of internal affairs. Upon a slow bell it will move, hoping thus to avoid shoals upon which other kindred organizations have foundered, cautiously moving, prudently steered, it hopes to stand the storms and safely anchor in the harbor of best results.

No membership fee is charged now for admission to the Board of Trade. After April 1st a fee of \$5 will be charged in addition to the \$2 annual dues, which all must pay, collectable April 1st and October 1st of each year.

According to the newly adopted constitution and by-laws the next regular meeting of the Board of Trade will be held the first Thursday night in April, in Council Chamber at 7:30 o'clock.

The following new members have been added to the roll:

Harry A. Ort,	H. L. Newell,
Jacob Thomas,	T. M. Russell,
Ben T. Cox,	C. D. Russell,
S. H. Shanklin,	Jacob Wornald,
Horace J. Cochran,	John W. Eltel,
H. W. Goodman,	J. W. Lee,
John I. Salisbury,	W. R. Warder,
J. Dud Rummous,	I. N. Foster,
H. C. Dieterich,	Sherman Ann,
E. G. Humphreys,	James N. Kirk,

While the membership roll of the board is large and very imposing in influence and representation yet there are others who ought to be enrolled. In this connection it is well to state there is no committee on getting members; each individual is delegated to procure new members.

BIG SALE OF TICKETS.

Indications Point to a Large Crowd at the Coming Scalchi Operatic Entertainment.

About \$150 worth of tickets for the Scalchi operatic entertainment Saturday night were sold Wednesday. The box sheet was opened only Wednesday morning and the demand for tickets points to a big attendance.

The lover of music who is not at the opera house Saturday night will miss one of the finest musical treats ever offered to the public in this community. The

entertainment will be furnished by the famous Scalchi Operatic Company, headed by the greatest contralto singer in the world, Mme. Sofia Scalchi. The company includes the renowned baritone, Signor Alherti, who scored a phenomenal success in New York last season; Mlle. Helene Noldi, the American prima donna soprano; Signor Canzio, tenor, and Walter Pick, musical director.

The entertainment is not simply a concert; the second part of the program will be devoted to a fine production of the fourth act of Verdi's Il Trovatore in costume, with scenery, paraphernalia, etc., and with a cast that has never been equalled in this city. This will be the only opportunity of hearing Scalchi here.

Mr. Orlando P. Cox has been granted a patent on his improved jack-screw.

The Contemplated Retirement From a Long Business Career.

D. HECHINGER, nominally Hechinger & Co., are going to retire from business. In plain words are going to SELL OUT.

Fortunately for the people, this step was not contemplated until after their entire Spring stock (not less than \$40,000 worth) was purchased and is in their house.

It is needless to say a word about the class of goods that will be thrown on the market. It is a patent fact, not only in our midst, but in the commercial world, that few merchants buy the uniformly high class of goods that Hechinger & Co. have always bought.

The Retirement Sale Will Begin April 1st.

It will take until then to arrange our stock for the sale.

Every article in the house will be sold at net cost—no more nor less.

Our readers will most assuredly take advantage of this sale.

It's a Rare Occurrence

that a stock of Clothing, Men's furnishings and Men's and Boys' Footwear of such high character are thrown into a forced sale.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

[Cynthiana Democrat.]

We see by the Maysville Ledger that Congressman Pugh has begun the distribution of watermelon seeds and has sent Editor Davis a nice package. We desire to enter a protest right here. We discovered that Congressman Pugh was a watermelon statesman when he was making the race against the Hon. Rolla K. Hart, and by right of discovery we claim the privilege of annually receiving the first package of seeds. It is outrageous that we should be turned down for a man like Davis who never discovered anything in Congressman Pugh at all. There would be just as much justice in depriving Col. Selly Earle, the George B. Cox of Berry, of the distinction of discovering that upon Congressman Pugh's election mules invariably go up, especially as to their hind quarters. It is a positive shame and we do not propose to stand it.

Capers Cut by the Electric Current.

[Paris Kentuckian-Citizen.]

On March 3 A. S. Thompson had three cattle killed by lightning on his farm south of this city, on the Clintonville pike. There is a fence running east from his stock barn connecting with another fence running south, and on this fence is a barbed wire. The lightning struck the fence 150 yards from the barn, the current divided, going seventy-five feet one way, killing one steer, and fifty yards in the opposite direction two more were killed. Fifty feet from the fence in another direction stood a cow in the heavy down-pour of rain. She was knocked down and lay there for nearly an hour and then was able to get up and stagger to the barn, but has since gotten all right. A man was entering the barn, and he was knocked down, but was not hurt.

Does Mr. Franklin Sell Goods in Maysville?

[Fleming Gazette.]

Henry Franklin, formerly of this city but now of Dover, was in town Thursday last, looking considerably the worse from a serious illness of recent date. He is improving rapidly, however, and in speaking of the proposed extension of the Pound Gap railroad he thought that Augusta or Dover would be a much better point to intersect the C. and O. than Maysville. He says that a road is already being projected from Augusta to Germantown, which could conveniently be joined at the latter place.

Death of Mr. U. P. Degman.

Mr. Ulysses Pelham Degman, a son of Mr. and Mrs. C. C. Degman, died Wednesday afternoon at 1:30 o'clock at "Maplewood," the family residence, near Springdale, aged twenty years. His health had been failing a year or so.

The funeral will occur Friday afternoon at 2 o'clock at Bethany Church, with services by Rev. T. P. White, of Tollesboro. Burial at Bethany.

Wm. Phillips will take his estimable wife with him when he goes back to his studies in the Bible College, where she will take lessons in music. We predict for them a brilliant future, as Mr. Phillips is already a fine speaker, although this is but his second year in the Bible school.

Some one who has nothing else to do is trying to assail the reputation of our efficient railroad agent in this place. We will say the C. and O. has not a more gentlemanly officer on the road than R. B. Cross, the agent at Springdale. He is always ready to serve the people to the best advantage of the road, always polite, genial and social, yet always on duty.

Wm. Phillips, of Australia, who is now a student in Bible school of the Kentucky University, has promised the good people of this vicinity a treat in the way of select readings during summer vacation. He has promised a select reading from a prominent author each Wednesday night. He will also give instructions in vocal music, and will assist in any other work for the up-building of the Bethany Church. The good work he has already done for the church will long be remembered by the people here.

The Springdale correspondent of the Vanceburg Sun wants to go over into Lewis County to get our next Senator. Why, the last one eluded Lewis as his home. He also nominates Dr. Bowman as the man. Well, the doctor is all right, but has according to said correspondent held about enough offices, as he refused one. Now I would suggest that we can find a man who will fill the bill, has always been true to his party, will carry the whole vote and a man who never asked for but one office in his life, and is our own citizen, viz: Elder T. F. Degman.

Mr. and Mrs. Elmer Downing, of Washington, were the guests of Misses Allie and Mayme White Saturday and Sunday.

"They say" we are to have a new postmaster this week. It will be a great satisfaction when mail can be gotten regularly in day time.

Rev. Harrop and family, of Maysville, enjoyed the rustic beauty of nature and country life last Friday. They were the guests of Mr. and Mrs. John Brodt.

Dr. J. T. Wells, wife and son, of Brandenburg, Ky., are visiting relatives here and in Maysville. We understand the Doctor has decided to locate in Texas and will leave for his future home at an early date.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times, Dr. Pierce's Favorite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womanhood are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favorite Prescription will not cure.

CAPTAIN J. HAMILTON.

PEACHES WILL BE SCARCE.

Pomologists Predict That Both the Michigan and Georgia Crops Will Fail This Year.

[Exchange.]

The outlook for a peach crop seems to be universally poor this season. The recurring blizzards and successive periods of intense cold have ruined the orchards in Connecticut, in Michigan and even in Georgia. Ex-Governor Hale, of Connecticut, who, besides thousands of acres in his own State, owns immense orchards in Georgia, informs the Department of Agriculture that he expects peaches from both States to wither in the bud. Every peach in Connecticut is killed, he says, and what is particularly alarming, even the semi-hardy kinds kept about his home for shade trees are dead. The pomologists, however, although they seem united in predicting a scarcity, do not believe that the Southern plants are dead.

Michigan, of course, shared the hardest fate. Not only her peach but also her apple industry will be crushed for the coming season. The mercury stood below zero for so many weeks that there is little hope entertained for any but the more hardy, and, therefore, less desirable species. In many orchards the ground was frozen to a depth of four feet. A trustworthy grower in the north of the State, a man in whom the department is accustomed to put confidence, writes that all his Ben Davis, Baldwin, Early Harvest and sweet apples are gone. This leaves the small districts around Niagara Falls and in Tennessee to supply the market. It is unnecessary to state that some of the peach-lovers will go hungry, while those who do indulge will pay heavily for the luxury.

SUDDENLY INSANE.

A Lewis County Preacher Attempts to Murder His Wife—He Had Joined the Mormons.

VANCEBURG, Ky., March 21.—Rev. John Simpler, who lives one mile southeast of Vanceburg, went suddenly insane last night, and though one of the gentlest of men in the normal state, he endeavored in his frenzy to kill his wife. He struck her in the back with his fist, felling her to the ground, and would have killed her had it not been for the timely arrival of near neighbors.

The whole night he was dangerously insane, and had to be held on the bed at times by two strong men.

He espoused the Mormon faith about a year ago, and was to have joined the colony of Pleasant Ridge converts that will leave here the 20th of next month for Utah.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y. For sale by all Druggists.—Price 50c. per bottle.
